# IN OTHER CASES

it is necessary to legalize the document  
before leaving Russia

THERE ARE SEVERAL WAYS TO  
DO IT

... if country where you plan to use documents did not sign the Hague Convention, you need **consular legalization**

...and if it did, you need an **Apostille.**

HSE will help you to make an **Apostille**: you will not have to go anywhere, just follow the command of International Office staff and fill in requested documents in time

- ❑ Unfortunately, HSE can not legally help you to do **Consular Legalization** and you need to plan to travel to Moscow after graduation
- ❑ However, International office will consult you on the necessary steps and will help you to fill out all the documents

THANKS!
