PhD, Associate Professor

Main features

Unique English-taught programme that provides comprehensive, truly interdisciplinary approach to studying business and politics in modern Asia.

It concentrates both on the general processes that take place in Asia as well as on the specifics of particular countries, primarily China, Japan, India, South Korea and other Asian countries

The Programme focuses mainly on business and political processes in Asia, including business and entrepreneurship, political and financial elites of the region, national-specific issues and intercultural communication, features of talent management practices and labor market.

Double-degree Programme with Ca-Foscari University (Italy). The start of the implementation from September 2020.
 Number of students — 5

What will you study

2 trajectories for learning:

- General trajectory “Modern development of Asia” for those who wish to continue deepening and expanding their knowledge, as well as those who have changed direction.
- Applied trajectory “Business in modern Asia” for those who are interested in specific professional competencies and have prerequisites.

Learning process

- Classes take place in the afternoon, so students will have time for research and scientific activities.
- Opportunities to participate in various project activities, conferences, workshops, that allow students to improve their skills.
- Students can attend guest lectures and master classes by leading Russian and foreign experts,

as well as participate in round tables and other scientific events, since the Programme has extensive links with leading schools in Russia and abroad.

Internship opportunities

- Large state corporations
- Private companies
- Consulting companies
- Business Support Companies
- International organizations working with countries in Asia and Africa
- Think Tanks
- Media

Semester abroad

We encourage students to participate in academic mobility programmes in Asia and EU. Our partners are Beijing Normal University, Fudan University, University of Vienna and many others.

Prospects after graduation

Programme provides management and strategic skills necessary for a business career in international and Asian markets.

Graduates are specialists in Asia and are able to become an entrepreneurs, political scientists or researchers, who understands the Asian specifics.

Skills obtained on the Programme allow to find a job in executive and legislative bodies, as well as in leading corporations, think tanks and media in Russia and abroad.

In addition, trainings on the Programme allow to pursue career in academia and continue studies in the leading universities in Russia and the world.
