

Instructions for connecting to the HSE.Student network on iOS

Connection to the network is possible only if you have an account of a HSE student in the HSE mail system (login and password).

The course of action:

1. Turn on Wi-Fi. Go to the device settings, to the Wi-Fi wireless network management section. We find the item "Turn on Wi-Fi". Select "Student"

2. Enter the username and password from the HSE student mail, click "Join".

Enter the password for "HSE.Work"

Cancel

Enter Password

Join

Username aivanov

Password

Additional information:

1. The name of the HSE.Student network (the letter case is exactly the same),
2. WPA2 Enterprise authentication method ("Security" field),
3. As a login (the "username" field), use the email address before the @ symbol in the input format: login.

To get help with using the university's digital services, it is enough to apply to the Digital Services Support Hotline:

- Through a Smart Point account,
- By e-mail - write to digital@hse.ru,
- By phone - call +7 (495) 625-50-15 or the multichannel number +7 (495) 772-95-90 *55555.
