

# Instructions for connecting to the HSE.Student network for macOS devices

Connection to the network is possible only if you have an account of a HSE student in the HSE mail system (login and password).

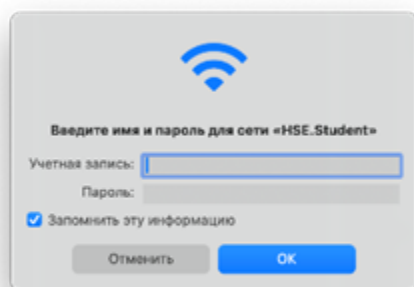

*The course of action:*

1. Turn on Wi-Fi. Find the Wi-Fi network connection indicator at the top of the desktop. Click on the icon, select "HSE.Student" in the menu that appears.

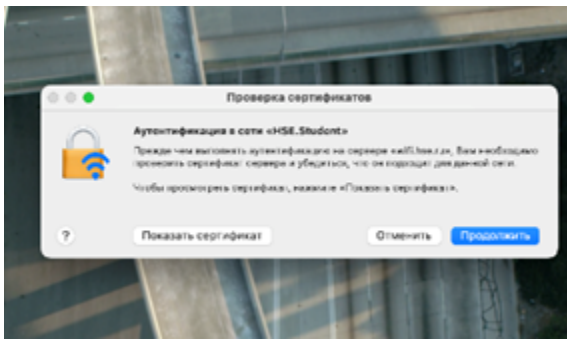

2. Specify the connection parameters.

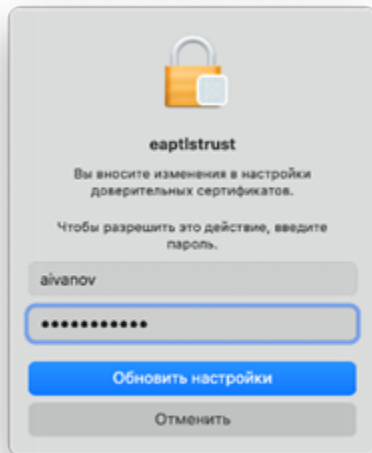

Enter the username and password from the HSE student mail, click OK

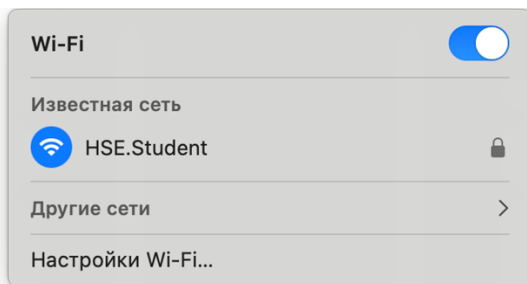

After entering the username and password, the certificates will be verified.

Click "Continue" and a confirmation window appears for making changes.

Here you need to enter the username and password of the computer administrator and click update settings.

To get help with using the university's digital services, it is enough to apply to the Digital Services Support Hotline:

- Through a Smart Point account,
- By e-mail - write to [digital@hse.ru](mailto:digital@hse.ru),
- By phone - call +7 (495) 625-50-15 or the multichannel number +7 (495) 772-95-90 \*55555.
